Summary

Analyst with a strong foundation in SQL, Python, java, Excel, document designer (pptx, words, reports) and . Skilled in cleaning, analyzing, and visualizing data to generate insights and support data-driven decision-making. Interested in collaborating on meaningful analytical work in fast-paced environments.

Skills

Programming & Querying: SQL, Python, java

Data Visualization Tools: Advanced MS Excel, document designer

Analytical Abilities: Data Cleaning, Exploratory Data Analysis (EDA), Insight Generation, Computer Vision, Py for ML

Experience

Intern

May 2023 – June 2025

Attendance system, chatbot-RAG

Tools Used: RAG, SQL, py, excel, dp

- **Processed RAG to create a chatbot** from multiple data to support daily customer to track records and accessories.
- Designed smart Excel templates embedded with lookup functions and higher documentation.
- Developed and maintained an attendance system using py and ml integration. By using computer vision and py packages this was built to keep records and visualize
- Collaborated work for data collection and data feeding for different models and model training.

Qualification and Work

Work and experience | Skills and training

Nov 2022 – April 2026

- **Analyzed and worked under google developer groups** to identify technical skills through hands-on workshops, bootcamps, and hackathons, focusing on technologies like Google Cloud, Android development, Flutter, and machine learning, .
- Engineered new features including contract type buckets and tenure bands to improve segmentation and insights.
- Worked on different model creation and model maintenance-build chatbots and recognition model.
- **Q-spider** getting trained by a prominent global software training institute leading to a development training with a focus on bridging the gap between academic skills and industry requirements.

Qualification and Performance

2015 – 2026

- Joined B-tech in computer science with specialization artificial intelligence and machine learning since 2022 to create consistent.
- Completed several interns, project work, workshops and created models and data analysis is done.
- Joined and getting trained by Qspider team and their organization leading to a great knowledge of full stack pyp and java, data analysis, MERN full stack, java testing.
- Joined and completed my schooling and higher secondary schooling from Jawahar Navodaya Vidyalay, Sarang. (2015-2022)

Awards & Certifications

- **Google Data Analytics Certificate –Google developer groups(2023):** Completed 8 practical case studies involving SQL, data cleaning, cloud management, and presentations.
- **Central Tool Room Training Centre-2025:** Ranked and certified among top students in model creation and data analysis.
- **Q-spider offer letter-2025:** Ranked and selected for training and job opportunities.
- **Best documentation and best presentaion:**

Education

B-tech CSE AIML

SUIIT, Sambalpur

Graduated: 2026

CGPA: 8.1 / 10
